MCT Brattberg

The Original Multi Cable Transit

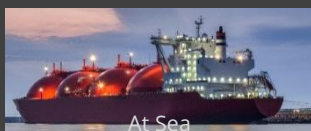

The Multi Cable Transit system was invented and subsequently patented by MCT Brattberg in 1952, and since then has become the industry standard for cable and pipe transit. Lyckeåborgs Bruk was founded in 1759, Karlskrona, Sweden.

MCT Brattberg commitment is to provide continuous protection for people and property through the innovation, design, development and manufacture of high performance cable and pipe transits. These are used in high-risk maritime, offshore and land-based environments - to minimize danger by preventing the spread of fire, water, gas, chemicals, blast and other hazards substances. Putting safety first lies at the heart of all MCT Brattberg business activities.

The internationally operating NIEDAX Group with its headquarters in Linz / Germany and its more than 25 subsidiaries is one of the leading manufacturers of cable management systems worldwide. In more than 90 years, NIEDAX Group has built up an outstanding product knowledge and experience in many sectors ranging from the Oil & Gas industry, the automotive industry, power generation or infrastructure to large scale manufacturing. Production facilities all over the world guarantee quality to the highest international manufacturing standards. NIEDAX group provides a complete range of steel, GRP and Aluminum cable management systems & accessories: wire basket trays, perforated and non-perforated cable trays and cable ladders with a full range of supporting systems. To increase our presence in the Asia-Pacific region NIEDAX group acquired ACS in June 2013

Our factory a complete range of electrical and mechanical support systems. All products are manufactured to NEMA International VE-1:2009, AS, BS, ASTM, NZS Standards and ISO 9001: 2008 Certified. Electrical support systems range from a very light for IT & Telecommunication cables to a large High Voltage power cables used on heavy industrial sites and power plants. Mechanical support systems used in variety of application ranging from major industrial project sites for pipe supports to bracketary on commercial buildings, facades and under floor computer systems

Flameproof Electrical Enclosures Limited (FEEL) is based at the centre of the UK Motorway network near Birmingham adjacent to all main International facilities.

Flameproof Electrical Enclosures Limited (FEEL) was formed in 1982.

We specialize in the manufacture of Stainless Steel, Mild Steel, Cast Iron, GRP and Aluminum terminal enclosures and junction boxes suitable for installation within explosive atmospheres.

The enclosures are certified and meet the requirements of the latest ATEX Directive.

The products within the FEEL range are being continually reviewed and expanded as necessary.

In addition to an extensive range of standard products FEEL offers a design and certification service for customized equipment using the latest CAD techniques and facilities to provide cost effective products and fast deliveries.

The FEEL name is synonymous with the very highest quality and demanding solutions, the Company's mission is to supply a superior quality product that meets our customer's specific requirements and gets the job done on time. It is this reliability that has been the essence of FEEL's success.

FEEL is the Right Choice for Quality Products and Quality Service.
